- ✓ Recipe Card

You just need to add:

Nothing, we've included everything you need!

You'll also need...

- Microwave
- Tray
- Plastic bowl
- Spoon or spatula
- Tablespoon

How to make your Santa Chocolate Lollipops...

Our recipe uses a microwave to melt the chocolate but if you don't have one, take a look at the FAQ's on our website for the bain marie method to melt the chocolate.

Look at the back page if you want to Get Creative with your lollies!

- 1 Melt the chocolate** in the microwave using the guidelines below. The objective is to ensure the chocolate melts slowly and doesn't get too hot (max. 33-34°C).

	Cat B (650W)	Cat D (750W)	Cat E (850W)
Step 1 - HEAT	50 seconds	45 seconds	40 seconds
Step 2 - STIR	For 1 minute	For 1 minute	For 1 minute
Step 3 - HEAT	20 seconds	15 seconds	10 seconds
Step 4 - STIR	For 2-3 minutes	For 2-3 minutes	For 2-3 minutes
Further Heating	If still not fully melted, then heat for additional 10 second bursts, stirring for 30 seconds in between.		

- 2 Prepare the transfer sheets** by laying them on a tray which will go in the fridge when you've made the lollies. Make sure the rough side is facing up otherwise the Santas won't come out on your lollies.

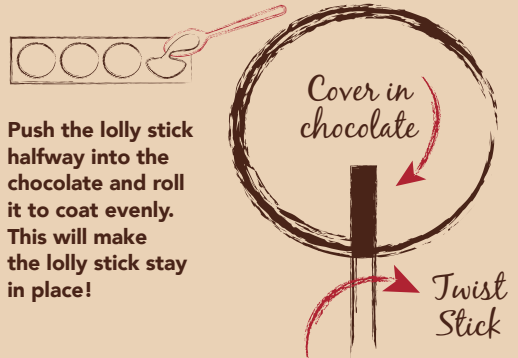

Chocolate at Home

- 3 Pour the chocolate** onto the transfer sheets using a tablespoon; about two tablespoons makes a perfect lolly. You can fit four lollies on each sheet.
- 4 Put the sticks into the chocolate** disc about halfway in and twist to coat the stick in chocolate. See our top tip below.

Top Tip!

- 5 Set the lollies** by leaving them at room temperature for 15 minutes which ensures the chocolate doesn't get cold too quickly. Put them in the fridge to set for 30 minutes.
- 6 Wrap the lollies** using the bags and ties in the kit. You now have 8 jolly Santa lollies to share with friends!

Turn over for details on how to store your lollies...

Get Creative!

Just sprinkle your favourite treats such as Smarties, marshmallows, crushed up biscuits and cookies or any other sweets you love onto the chocolate lollies before they set.

You can also make other lolly shapes, have a look at our website for ideas!

How to store your lollies

The lollies can be kept in the fridge in an airtight container or at room temperature but keep away from direct sunlight and strong smells. We recommend they are consumed within 14 days.

Tell us about it!

We'd love to know what you think of our Santa lollipop kit! If you've got any pictures or videos too you can show them here:
